

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

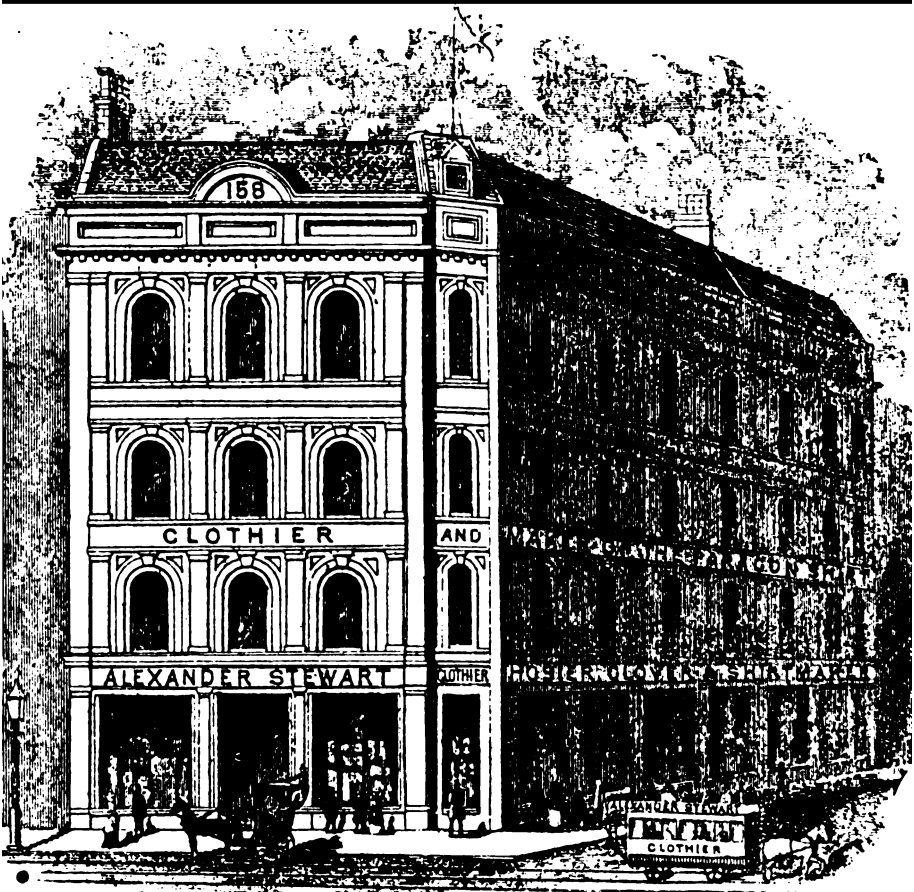

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. ## MUTUAL LIFE ASSURANCE.

### The Scottish Provident Institution.

No. 6 ST. ANDREW SQUARE, EDINBURGH.

THIS SOCIETY DIFFERS IN ITS PRINCIPLES FROM OTHER OFFICES—Instead of charging rates that are higher than necessary and afterwards returning the excess, in the shape of periodical Bonuses, it gives from the first as large an assurance as the Premiums will with safety bear—reserving the Whole Surplus for those who live long enough to secure the Common Fund from loss.

A Policy of £1,200 to £1,250 may thus at most ages be had for the Premium usually charged for £1,000 only; while, by reserving the Surplus, large additions may be looked for on the Policies of those who participate. At last investigation, Policies for £1,000 sharing a first time were increased to sums ranging from £1,170 to £1,300. In some cases, Policies which shared at the whole four divisions, have now been doubled.

ITS TERMS are thus specially adapted to the case of Provisions in Family Settlements, or otherwise, where it is of importance to secure for the smallest present outlay, a competent provision, of definite amount, in the case of early death.

#### ANNUAL PREMIUMS FOR £100 AT DEATH (WITH PROFITS).

AGE.	25	30	35	40	45	50
During Life...	£1 18 0	£2 1 6*	£2 6 10	£2 14 9	£3 5 9	£4 1 7
21 Payments...	2 12 6	2 15 4	3 0 2	3 7 5†	3 17 6	4 12 1

\* A person of 30 may thus secure £1000 at Death, by a yearly payment, *during life*, of £20 lbs., which would generally secure elsewhere about £800 only.

† At age 40, the Premium *ceasing at age 60* is, for £1000, £33 14s. 2d.,—being about the same as most Offices require to be paid during the whole term of life.

The New Business has, for some years, exceeded a Million per annum.

The Expenses of Management (only 9 per cent. on Premiums, or a little over 6 per cent. on the total income) are much lower than in any Office doing so large an amount of new business.

The PREMIUM INCOME has doubled in 10 years.

The FUNDS now exceed Five Millions.

Only two offices in the Kingdom (both older) have as large a Fund.

Claims under Policies payable a Month after Proof.

Full Statements of Principles will be found in the Reports.

January, 1885.

## TESTIMONIALS.

*From the late Sir GILBERT SCOTT, Architect.*

“I have used your Patent Self-Acting Air-Pump Ventilators with complete success.

“From experience of them in my own house and other buildings—public and private—where they have been applied under my own direction, I can confidently and will always have great pleasure in recommending them.”

*From ARTHUR CATES, Esq., F.R.I.B.A., Architect to the Crown, &c.*

“I have used your Air-Pump Ventilator with satisfactory results. Those fixed under my direction at the Library of the Inner Temple have realised my expectations, and completely fulfil the objects which I had in view. I consider this application of them a severe test, and the success which has attended it confirms the statements which you make as to their efficacy.”

*From Sir WILLIAM THOMSON, F.R.S.*

“I have seen several different forms of Mr. Boyle's Air-Pump Ventilators in actual operation, and have much pleasure in testifying to their efficiency. They thoroughly realise the favourable anticipations which I formed from experiments on models shown to me by Mr. Boyle. Having one fitted up in my yacht, I find it has caused a very decided improvement in the draught.”

### LIFE ASSURANCE.

Under the LIFE INSURANCE SYSTEM of this Company, the Assured obtain *every privilege and advantage* which experience has suggested as possible, added to the *safety* of dealing with a Company of more than *sixty years' standing*, possessing large ACCUMULATED FUNDS.

**EARLY BONUS SCHEME (E.B.)** The following, among other special advantages, apply to Policies issued under this Scheme: Besides being payable one month after proof of death, they are *at the end of three years*

Entitled to rank for Bonus Additions;  
 Indisputable on the ground of Errors or Omissions;  
 World-wide without Extra Charge; and  
 Liable only to reduction in amount on non payment of the Premium.

**SPECIAL BONUS SCHEME (D.B.)** Under this Scheme *profit-policies are issued at non-profit rates*, and share in the profits when the premiums received, with Compound Interest at 4 per cent., amount to the sum assured. Policies at these cheap rates practically *receive a Large Bonus at the outset*. At age 30, £1200 can be insured for the same premium as would be charged for £1000 under the usual profit schemes of most offices.

### FIRE INSURANCE.

## Forfeiting of Life Policies Prevented.

While the Non-Forfeitable Systems of most of the other British Companies merely provide for the conversion of the lapsed assurance into a Paid-up Policy for a materially reduced amount, the more liberal system which for the last four years has been adopted by this Company secures the continuance of the original assurance so long as the surrender value of the Policy is sufficient to meet the over-due premiums and interests thereon at 5 per cent. This plan effectually prevents the lapsing or forfeiting of any valuable Policy.

*The other advantages offered in the Life Department include—*

**Unsurpassed Security**, the Reserves being on an unusually ample scale.

**Liberal Participation in Profits**, with option of applying Bonuses to make the Policy payable during life.

**Lowest Scales of Premiums**—See Tables A2 and B in Prospectus.

**FIRE INSURANCES** are granted on the most favourable terms. The Fire Reserves bear a high proportion to the Premium Income, thus affording the most unexceptionable Security.

When tested in London, by Mr. S. S. Hellyer, BUCHAN'S Exhaust Induced-Current Fixed Ventilator excelled all the other Leading Makers' Cows and Ventilators by 94,000 feet of greater exhaust in 21 hours testing in the *open-air*—and is still the Champion.

**Illustrated Price Lists free from W. P. BUCHAN & E., 1 Renfrew St., Glasgow.**

Messrs. M'KISSACK & ROWAN, Architects, Glasgow, write: "March 10th, 1882.—We have used your Appliances after careful inquiry, and find them to work satisfactorily. Hellyer's Tables of Experiments first opened our eyes to the Comparative Merits of your Ventilator, and we have no doubt of its being perhaps the least liable to down-draught, and the most powerful and efficient wind-power Exhaust Motor of any in the market known to us."

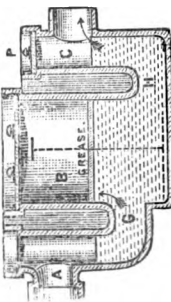

J. MURRAY ROBERTSON, Esq., Architect, Dundee, writes: "3rd Nov., 1884.—I have great pleasure in adding my testimony to the merits of your Ventilators. I have now used a very large number of them, and have found them to work admirably."

A. LINDSAY MILLER, Esq., Architect, Glasgow, writes: "6th Nov., 1884.—The introduction of Mr. W. P. Buchan's Disconnecting Traps for Drains, etc., and the system of Ventilation, inaugurated therewith in April 1875, has, in my opinion, done more for the advancement of House Drainage than all other appliances put together."

## PREFACE.

---

THE object of this work is to supply a reliable guide to the value of Lands, Houses, Ground Burdens, and Heritable Securities generally, by recording the actual result of the exposures of such, by public roup, during each year.

The compiler has long devoted his attention to the Property Market, and his connection with the *Glasgow Property Circular* gives him every facility for the task undertaken. The *Glasgow Property Circular* has, for over a quarter of a century, been the recognised medium in which to advertise the sale of every description of Heritable Property, and is, in consequence, the only referable property record extant.

Considering that so much of the Nation's wealth rests in Land and Heritable Investments, it is astonishing how few methods there are by which the

## **PREFACE.**

---

general public can note the fluctuations therein ; and the commercial community have long felt the want of something on which they can rely when dealing with Real property.

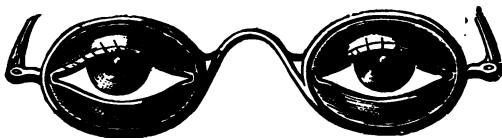

All who desire to ascertain, or found, the value of one property by comparing it with another, can, with the help of the "Property Index," learn every particular respecting it, or similar subjects in the vicinity.

Solicitors, Accountants, Bankers, Trustees, and others interested in Property, whether as Proprietors Lenders, or Agents, are here provided with a book of reference that must prove eminently useful, and for which no merit is claimed except completeness and accuracy.

## THE "SCORER" FIELD GLASS.

The "SCORER" FIELD or MARINE GLASS, so called for its efficiency for Scoring at Rifle Practice, is without a rival for value. The above engraving represents the instrument with Spray Tubes, or Sunshades, closed. The height of the instrument when extended for use, is  $6\frac{1}{2}$  inches; when closed up, ready to be put in its case—which is also represented in engraving—it measures in height  $5\frac{1}{2}$  inches; extreme width across both Object Glasses,  $4\frac{1}{2}$  inches; size of Object Glasses,  $1\frac{1}{2}$  inches. The Bars and Focussing Tubes of the instrument are very strongly made of Black Enamelled Brass. The Body is covered with Black Morocco, sewed so as to prevent its readily getting detached by damp. Screws not liable to derangement. The Lenses are Achromatic, giving high power and clear definition.

SIR,—Your Binoocular, "The Scorer," turned up safely, and I enclose cheque for £1 15s. It pleases me very much. I can see sand-pipers and shore birds a mile off on the sea shore, and, in a word, for all sporting purposes it is everything I could desire. It is also, I find, good at 5 and 10 miles for larger objects.

Yours faithfully,

To Mr. J. BROWN, Optician.

# **C. M. PERCY,**

PROPRIETOR OF THE

## **FAMOUS "PERCY" SHOE HOUSE,**

THANKS the many patrons of his different establishments, and is especially pleased at the success which attended the opening of this emporium, a success that years has greatly increased.

That such a place of business was urgently required is evidenced by the result.

All patronising this model Shoe House are amazed at the reasonable prices charged for HIGH CLASS Boots and Shoes, acknowledging the saving of from 20 to 30 per cent. on the prices ordinarily charged elsewhere for the same class of goods.

The New System of selling HIGH-CLASS Boots and Shoes, at MANUFACTURERS' PRICES, has made the "Percy" a genuine commercial success.

WHY PAY 20/- WHEN YOU RECEIVE EQUAL VALUE at the "Percy" for 15/-? The same saving holds good, whether you purchase "PINET'S FINEST" or "PERCY'S OWN." A fair trial for comparison respectfully solicited.

## ANTIDOTE FOR LARGE GAS ACCOUNTS.

**G**AS Accounts are large, and they will remain so until the "Cragallion Gas Governor and Economiser" is adopted by all classes.

It saves from 4s. to 10s. on every £1 paid for Gas. Keeps rooms free from the vitiating effects of half-burned Gas. Is used by Gas Companies, when testing, to obtain the highest candle power; and is used by them for economy where they are themselves concerned. Is guaranteed to be upheld for seven years, free of cost. Has by far the largest number of patrons in Glasgow and West of Scotland. Is indestructible, positively safe, and reliable—no mercury being used. Our price is within the compass of all.

Most astonishing results have been achieved by using the "Cragallion" on the Meters of Private Houses, Works, &c. Most of our patrons are saving Pounds a year, at a first cost of only a few shillings. One firm in Glasgow saved £18 in six months, while the total cost of the Governor was £7 10s. Used by Royal Exchange, Stock Exchange, and numerous private patrons.

Another firm have a yearly saving of £150 at a first cost for Governor of £14 5s. Names and particulars of these results given on application to us.

**Shaw & Son's Patent "Sine Qua Non" Range**

**HAS THE FOLLOWING IMPORTANT ADVANTAGES :**

- 1st. It is a thorough cure for a smoky vent.
- 2nd. It completely carries away the offensive smell of cooking.
- 3rd. It effects a saving of a half in fuel.
- 4th. The Oven bakes perfectly either when used as an Open or Close Fire, and the top and bottom is heated equally throughout.
- 5th. The water for baths is always perfectly hot, both when the range is used as an open fire all day, and when it is used as a close fire.
- 6th. It can be supplied in two different ways, viz., either for building in with brick flues or with iron flues. This latter plan is specially suitable for country houses.
