PREFACE.

THE writs and extracts from the various records given in the present volume are intended to portray and throw some light on a phase of the history of Old Aberdeen which in the past has not had much attention given to it.

The religious and educational interests centred in the Old Town have in a measure thrust the civil institutions and life of the people into the background, and though these latter may not relatively compare in importance with the two former, yet the life within the Bishop's burgh, far from being uninteresting and uninteresting, is capable of adding much to our knowledge of the conditions of society in a past age, and of setting before us old customs and usages not now in practice.

The almost perfect freedom exercised by the burgesses in all their affairs during the period covered by the extant minutes of the Council is a noteworthy fact. With few exceptions the minutes of the Town Council might be those of any Royal Burgh, so free were the burghal institutions from the control of the Bishop as lord superior.

The existence of King's College within the liberties of the burgh would lead one to expect more extended notices of that institution than actually occur, and the reason for this

seeming omission in the minutes may arise from the fact that for long King's College claimed and exercised a jurisdiction outwith that of the Magistrates and Council.

As an opportunity, however, will be given in a subsequent volume to treat of the history of Old Aberdeen in detail, it is not desirable to touch further on the subject heré.

The Records from which the extracts contained in this volume have been drawn consist of :—

1. A series of Charters and Acts of Parliament, selected with the view of showing the foundation of the Bishopric and the erection of the Bishop's seat into a burgh of barony, with the subsequent acts of the Scottish Parliament dealing with subjects closely connected with the welfare of the burgh.

2. Extracts from the minutes of the Town Council which commence with the election in December, 1602. These proceedings are complete with the exception of two volumes covering the periods from May, 1617, to November, 1634, and from June, 1728, to July, 1738, respectively,¹ and although efforts have been made to trace the missing volumes they have proved unsuccessful. An inventory of the volumes containing the proceedings of the Council is referred to in more than one minute, but nothing earlier than the first existing minute-book is mentioned.

3. The Treasurer's Accounts consist of the separate accounts made up by the respective persons holding the office of Treasurer of the burgh, and they have been sorted out from a very large mass of papers and recently bound into a volume. They are necessarily very incomplete, and the earliest recovered account is that of William Angus, treasurer from Michaelmas, 1660, to Michaelmas, 1661. The selections from the accounts

¹From 1707 to 1709 and from 1712 to 1719 no regular meetings seem to have been held, and no minutes are engrossed in the minute-books.

have been made with a view of supplementing the extracts from the minutes.

4. Merchant and Trade Burgess Roll. It has been thought advisable to give in full the merchant and craftsmen lists, in view of the fact that this class of record is becoming more and more recognised as a most valuable aid in all matters relating to genealogical research. The honorary burgess list may not be so brilliant as that of some burghs, yet it contains numerous names of illustrious visitors and others of sufficient interest to have them recalled in their capacity as honorary freemen of Old Aberdeen.

The roll till 1719 is compiled from the Council Registers, after which date a separate register was kept for all admissions whether ordinary or honorary.

4. The Merchant Society, dissolved within the present year (1899), possess the charter by Bishop Patrick Scougall in 1680 granting the merchants liberty to form themselves into a Society. The charter was produced on several occasions as the writ securing to the merchants the privilege to be received and acknowledged as a corporation, and of so great importance was it that strict injunctions were given from time to time for its preservation in their box. The extracts taken from the extant minute-books show the origin and nature of the Society, and also that it possessed nothing of the character of the Guildry Incorporations in other burghs.

5. Trade Incorporations. A selection only has been made from the records of the various trades as illustrative of the whole. The two charters by Bishop Adam Ballenden, in 1637, and Bishop George Haliburton, in 1684, are the foundation for the rights exercised by the craftsmen. The trades as incorporations had an existence prior to the first of these charters, and even before the date of the earliest extant minute-book in

1604. The licence or seal of cause in favour of the Gardeners' Society in 1754 shows the Council acting in the same capacity as the Bishop, and with powers similar to those exercised by the magistrates of a royal burgh.

6. The Miscellaneous papers include an interesting list of the inhabitants within the Spital and Old Aberdeen as compiled by the order of the Magistrates in 1636, from which it appears there were then 829 persons within the liberties of the burgh, including 268 children. For comparison there has also been given the list of persons liable for poll in 1696, showing the total at that date to have been 843, but that number is exclusive of children under sixteen years of age. The valuation roll of 1796 is of considerable interest not only as showing that the population had by that date increased to 1100, but as giving an index to the house rents payable at the close of last century. The total valuation amounted to the sum of £540 15s. od., and as indicating the enormous increase in the wealth of the community, it is worthy of note that for the year 1890-91, the year before the amalgamation with Aberdeen, the rental of Old Aberdeen was about £8300.

The concluding papers, taken from the proceedings of the Parliamentary Commission for Trade, in 1699, give a glimpse into the commercial status of the Old Town and to the strong feeling prevailing between the two towns as to their respective rights and privileges of trade.

I have to express my best thanks to the various gentlemen connected with the Merchants' Society and the various Trades for the permission so kindly granted me to inspect their records and to extract whatever I considered of interest. I am also indebted to T. R. Spence, Esq., London, for his kindness in furnishing the beautiful drawing of the Arms of the Burgh which forms the frontispiece to the volume, and to William

F. Webster, Esq., Chanonry, for specially photographing the views of Old Aberdeen, from which the reproductions were made. To F. C. Eeles, Esq., and P. J. Anderson, Esq., the Secretary of the Club, my acknowledgments are due for assistance and advice in the preparation of the volume.

Bull of Adrian IV. confirming all grants to the Church of Aberdeen made by the most serene princes, the Kings of the Scots, to the Reverend Father Edward, Bishop. 10th August, 1157.

Adrian, Bishop, servant of the servants of God, to our Venerable brother Edward, Bishop of Aberdeen, and to his successors canonically following him, perpetual Greeting, and the apostolic blessing. Seeing that, as enjoined upon Us by GOD, in the office of our apostolate, wherein by Divine authority We are set over all CHRIST'S faithful people, We ought to promote the peace and tranquillity of all men; especially does it behove Us to be careful for the quiet of those who are endued with pastoral dignity and are promoted to the pontifical office. For unless We, by promoting their advantages, preserve

Therefore, our venerable brother Bishop in CHRIST, We, urged by the consideration of this very matter, graciously assent to thy just petitions, and We take under the protection of the blessed Peter, and under our own protection, and fortify by the privilege of this present writing, both thy person, and the Church of Aberdeen, over which, by the providence of GOD, thou art a distinguished ruler; decreeing that whatsoever possessions and whatsoever goods the said church possesses at the present time by just and canonical right or may obtain in the future by the concession of Popes, the liberality of kings or princes, or the offering of the faithful or by other just means, shall, by Divine security, be held firmly by thee and thy successors and shall remain inviolate; among which we consider that the following should be specified by their own names: the Church of Aberdeen,² the Church of S. 13 FEBRUARY 1752.

The said day the Magistrats and Councell considering that whereas many good laws and Acts of Parliament have been made from time to

time for suppressing vagabonds beggars and idle persons who are a great burden and reproach to the Country and that a ruineous brood of such persons are daily increasing who for the most part live without all law or rule, sacred or civill and from some particular circumstances are likely to increas in a remarkable manner in this toun, to the great oppression of the inhabitants and breach of all good order, And seeing the Ministers gentlemen of the University and other inhabitants of the Town, out of their laudable regard for, and disposition towards charity and good order, Have resolved to contribute voluntarily from time to time for the support of the Poor of the town, so that with the help of their own industry, they may be maintained hereafter in their own houses without begging in the streets or at the doors of houses Therefor the Magistrats and Counsell do enact that so long as the said voluntary contribution doth continue so that the Poor shall have a competency to maintain them in their houses, no person or persons in what pretence soever whether belonging to this Town or parish, or to any other town or parish, shall hereafter beg through the streets of this town or at the doors of houses, and that after the first publication of this act by touk of drum if any person or persons shall begg through this town, for the first offence they shall be imprisoned for seven days and fead on bread and water, for the second offence, they shall be imprisoned for thirty days and in like manner feeld on bread and water, and for the third offence they shall be expelled the Town with touk of drum, with certification, if they return again, they shall be corporally punished and delivered over to the house of correction and otherways punished as vagabonds. And whereas there are severall people residing in the town of low and destitute circumstances who either are at present or probably will very soon stand in need of publick charity, and yet have not resided three years in this town It is therefore enacted that all such persons shall immediatly return to their own parishes, or if they refuse so to do, that they shall be compelled by the Magistrats so that they and their famillys may not become a burden upon this town. And further in order to prevent for the future the recepting or setting of houses to beggars or those whose circum-

stances are so low that in all probability they must soon become beggars who belong to any other town or parish or to the country part of this parish, It is enacted that all persons in such circumstances who come to reside in this place, shall find caution for their maintainance at least for three years without begging or publick charity, and that no persons shall receipt or sett them houses or parts of houses to any strangers from other parishes or from the Country part of this parish, but such as are of good moral character and have a stock or visible way of subsistence, and that ten days befor setting a house or part of a house to any person concerning whom there may be the smallest doubt of his being of a bad character or not able to maintain himself, he shall acquaint the magistrat or the elder or constable of the quarter of the persons name occupation and place of residence, that the Magistrates or Kirk Session may inquire into such persons reall circumstances and character and give their directions accordingly. . . . The Councill haveing considered the within report along with the two cards within minuted, They are of opinion that the Toun and Community are ill used by Mr Midleton, and therefore they agree that in the first place a petition be given into the Sheriff of Aberdeen for haveing the channell water allowed to run for the benefite of the Toune as formerly, at least till it be tryed to whom the property belongs and if the Toun and Community have a servitude therein, and in the next place as its troublesome to be calling a Councill on every emergency thereanent, The Councill unanimously agree to and doe name the Magistrates and the Principall of the Colledge as being concerned for the hospitall a committee for meeting and advising as to all steps necessary to be taken in relation to the above affair, and in case of any plea being found necessary they name John Clerk senior, advocate in Aberdeen as their agent and doer. And whereas it is absolutely necessary to have a reservoir for the water within the Town the Councill went and visited the low or ground flatt room of the Prison and found it not only the most commodious place for the purpose but that the using of it will save a deal of expence to the Town They therefore approved of using the said lower ground flatt room of said prison for the purpose of said Reservoir, and as by using it in that way the prison room must be carried to the third flatt. IX 67.

25 JULY 1782.

At the first meeting of the Military Association of this town, formed in compliance with his Majestys recommendation for the purpose of learning the military exercise, and assisting in the defence

of this Town and neighbourhood in case of hostile invasion. The following resolutions were unanimously agreed upon viz^t—

1st Every regulation respecting this Association is to be formed by the votes of the majority of the members, and afterwards to be binding upon the whole.

2d The arms and accoutrements of the Volunteers to remain in their custody, during the time of their learning the exercise, and afterwards to be deposited wherever the Commandant of the Corps may think proper to direct. Each volunteer to give a receipt for the arms and accoutrements placed in his possession.

3d Hugh McLean of Coll as chief Magistrate of this Town when present at a field day or review, to have the compliment paid him as Commander in Chief But as he is not a military man he is in no respect to command or give orders, which is only to be done by the Commandant of the Corps.

4th The officers of the Corps to consist of a commandant, one captain, one lieutenant, and one ensign.

5th The following gentlemen and inhabitants of this Town are unanimously voted to fill those stations viz^t Major Ach^d Mitchell, formerly an officer in his Majesty's service and lately a major in the service of the East India Comp^y to be Commandant of the Corps. Captain Alexander Geary many years in his Majesty's service and late a captain in the service of the East India Comp^y to be Captain. Hugh Leslie Esq of Powis, to be lieutenant, Mr W^m Volum, Conveener of the Trades to be Ensign.

6th A committee to be chosen, consisting of Hugh McLean Esq^r Provost, the four officers of the corps and five other members of the Association, for the purpose of regulating the business of the whole. The following members are chosen for the Committee viz^t

Professors { Gordon } Baillies { Cruickshank
 { McLeod }

7th The officers of the corps and members of the Committee to be selected at the expiration of every three months.

8th In case of invasion it is to be at the option of the corps whether they will choose to leave the Town, in order to assist their neighbours In such cases and when acting in conjunction with his Majestys regular

forces, they are to be under the orders of his Majesty's commanding officers, and to be subject to martial law.

The members of the Association respectfully acquaint the Magistrates of the Town, that their corps already consists of seventy volunteers, and they hope in a little time it will amount to one hundred. They therefore recomend that that number of arms and accoutrements, with a sufficient proportion of ammunition for exercise and real service should be immediately procured from his Majesty's stores, and such a number of non-commissioned officers appointed for them, from the regular troops as shall be thought sufficient to instruct them in the military exercise. They farther beg leave respectfully to represent that as the whole number of the inhabitants of this Town, fit to bear arms, does not exceed one hundred and seventy they therefore hope that the unanimity they have shown, in complying with his Majesty's recommendation will be acceptable to their Gracious Sovereign and his Ministers. IX 163:

5 OCTOBER 1786.

Thereafter there was laid before them outlines of a plan for uniting the Kings and Marischall Colleges. And they having fully and maturely considered the same with the arguments advanced and urged in the writings on both sides of the question were unanimously of opinion that the above plan will not be productive of the advantages it sets furth but on the contrary will be hurtful to the country and prejudicial to the interests of education, and seeing that this scheme cannot be brought about without the subversion of the chartered rights of a venerable University which has subsisted in our City for near three centurys with honour and reputation We the Provost, Magistrates and Council must express our disaprobation of this plan and the methods by which it has been carried on—And our trust and confidence that our Gracious Sovereign and the houses of Parliament will reject the same if it shall ever be laid before them in a way that shall effectually discourage the like attempts for the future. And in regard the best interests of this City are so deeply concerned in the event of this plan of Union which if executed would greatly reduce the value of the whole property of its inhabitants The Council recommended to the Provost and Bailies to transmitt an extract or certified copy of the present Act to

the r^t honb^{le} Lord Sydney Secretary of State for the Northern department and in the Councils name to request his Lop^s countenance and support of the University in our town labouring at present under oppression and persecution And farther that if need be they will petition his Majesty and the houses of Parliament and make every legal and constitutional opposition to so unprecedented and ruinous a measure. IX 205.

5 FEBRUARY 1788.

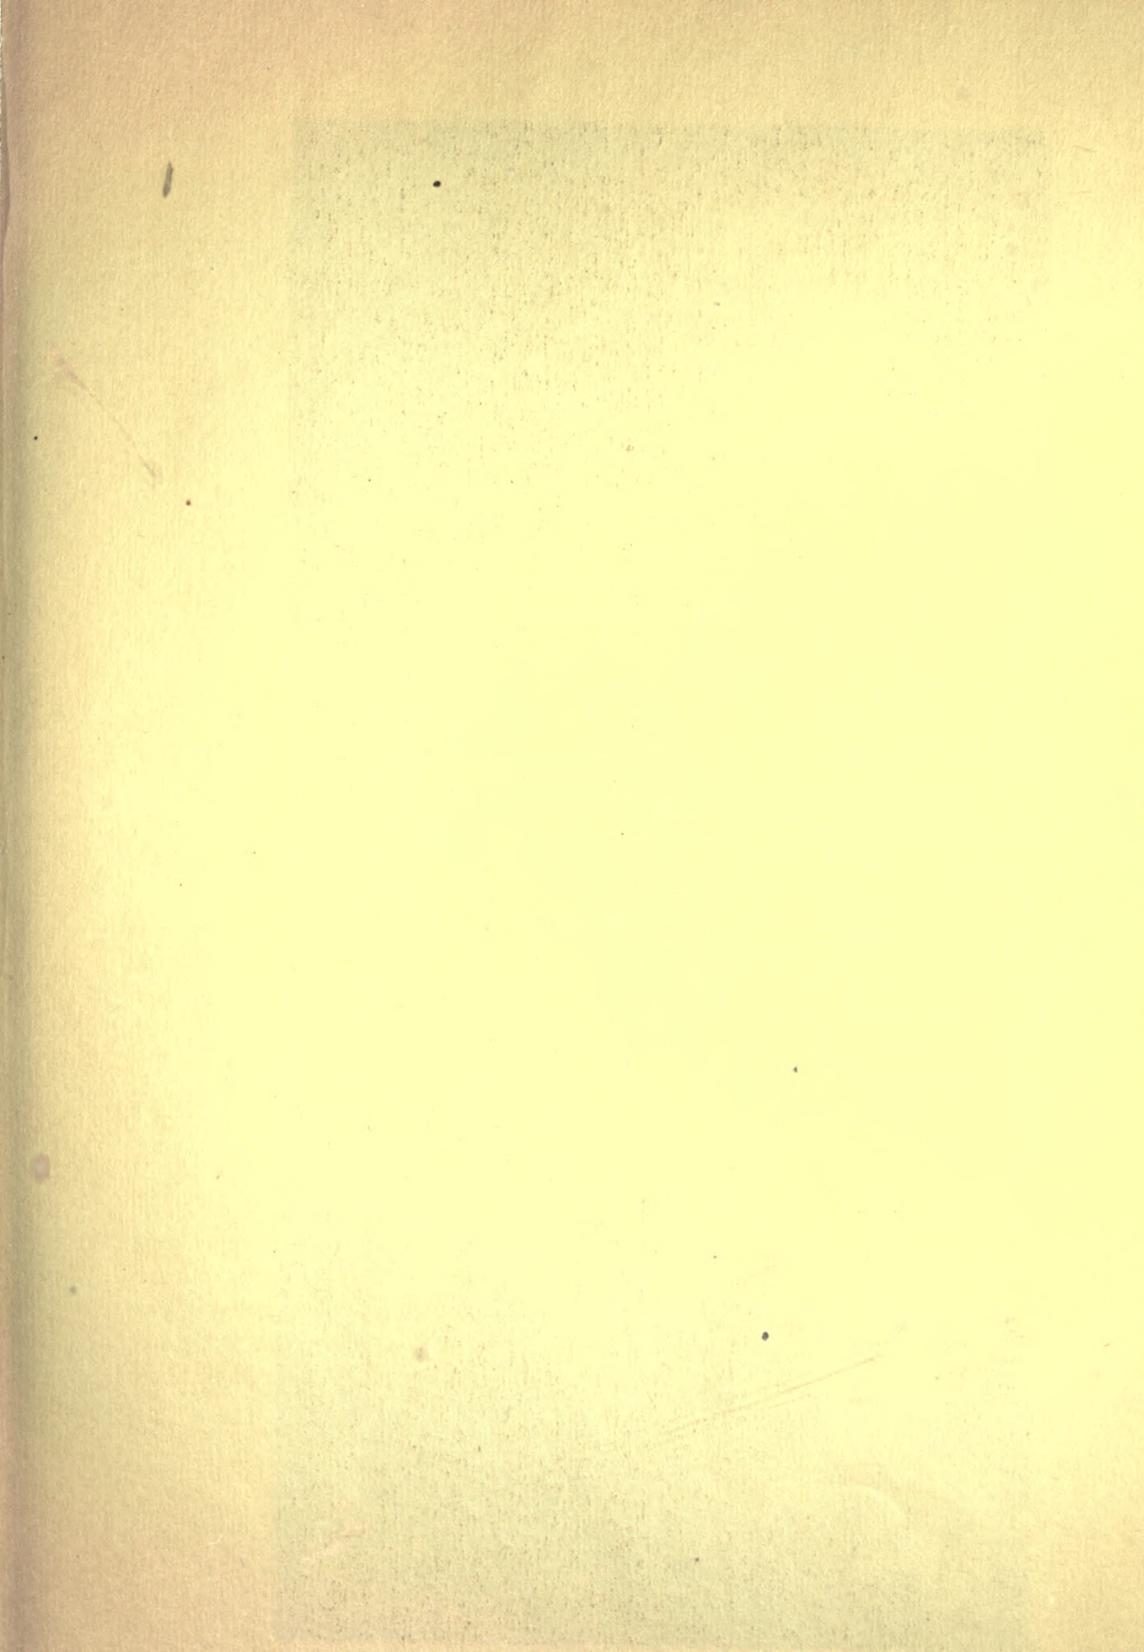

Severall of the estimates for executing the plan No 1 [for rebuilding the town house] and three for executing No 2 were laid before the [Committee] on considering which they agried at present to deferr determining which of the two should be adopted but finding the estimate given in by Conveener Jaffray for both plans that for No 1 amounting to £330 sterling and that for No 2 to £475 are upon the whole as reasonable as any given in and much below severall of them they unanimously agree to employ the said Conveener Jaffray for the whole building and undertake to inform him which of the two plans shall be executed against the first day of March next. . . . IX 237.

28 NOVEMBER 1788.

The Magistrates being resolved to make an exact enquiry into the late dangerous fire which happened lately in this city found that it had arisen from accident and no culpable neglect or inattention, but as the Town is in such constant danger from an improper manner of cleaning chimnies and from thatched roofs they resolve to make such regulations as shall appear proper for preventing such accidents in future and for that purpose adjourn the Council to Saturday the 6th December next and in the meantime they prohibit the proprietors of the houses which have been lately burnt from repairing them with thatch. IX 228.

13 JULY 1789.

A representation was given in by a number of gentlemen complaining of the nuisance of the port called Clunies port leading to and from the church and that the same is ruinous and dangerous. The Councill order the Theasurer to cause make out a regular complaint and have the same served upon Walter Leith the person pretending to

be the proprietor of said port so as he may show cause, if he any has, why the port should not be pulled down or rebuilt in such manner as to avoid danger of the same being a nuisance in time coming. IX 236.

18 JANUARY 1796.¹

The Provost informed the meeting that the Committee named at the Court on the 30 November last for making up a list and rent roll of the whole house rents within the City, not being prepared to make their report on the 4th curt an adjournment to this day was advertised by tuck of drum. He now produced their report, by which it appeared that the number of inhabitants is 1100, And that the amount or value of their rents is £540 15. 0 sterl.²

The Provost then represented to the meeting that great complaints have been made for sometime past of the badness of the streets and lanes of this City. That the Treasury is at present in so low a state that the only fund for their support is what remains of the statute labour after keeping in repair the East road; and as it must be allowed the having the streets lighted in the winter season would be a great advantage to the inhabitants it is to be wished some plan could be devised to causeway properly, have a foot pavement and light the streets with a sufficient number of lamps. To accomplish improvements so beneficial to the community the present head Court is called in order to deliberate on the propriety and expediency of these measures, and to concert the means for raising a fund as little burdensome as possible to the inhabitants.

The Provost then submitted the following plan and proposals to the meeting—

1. That the inhabitants shall assess themselves for the space of twenty one years at the rate of one shilling per pound sterling of their rents for defraying the expence of paving and lighting the streets and supplying the City with water.

2. That the first payment of the assessment shall be at Whitsunday first.

3. Seven trustees for carrying these measures into effect shall be chosen once in every two years, out among and by the inhabitants of the description after mentioned. The twenty-fifth of March to be the

day, and the Court house the place of election, or the next lawful day if that shall fall on a Sunday Signed lists to be given in by the voters three days previous to the day of election, at the first and ensuing election, to the Assessors named at the last Head Court, And to the Trustees for the time at the subsequent elections, who shall have power to compare the lists and declare who are elected. Four to be a quorum.

4. These Trustees shall have the sole management and direction of paving and lighting the streets and supplying the town with water, and of employing and paying proper persons for these purposes.

5. They shall have power to choose a clerk, if they see proper, and must keep regular and distinct books and accompts of their receipt and expenditure.

6. Every inhabitant paying fifteen shillings of rent, or whose house or shop is valued at and would produce that rent, to have a vote in the election of Trustees.

7 MAY 1798.

The Magistrates and Council having taken under their serious consideration the present danger of the Country from the threatened invasion of the French, and the necessity of opposing with unanimity and spirit the ambitious and destructive views of our inveterate enemys Resolved that it is the duty of good citizens to unite their efforts at the present momentous crisis in the support of the Religion Laws and Liberties of the Country and to concur in the general plan of defence by making offer of their personal services.

Resolved that the Magistrates and Town Council shall by their influence and example recommend it to the inhabitants to prepare themselves for rendering personal services in defence of the King and Country in the most efficacious manner.

Resolved that the thanks of the Magistrates and Council be returned Provost Leslie for his suggestion of these resolutions, and that the same shall be published in the *Aberdeen Journal*. IX 305.

19 NOVEMBER 1800.

Several letters and papers respecting the proposed Hospital being laid before the Council, they authorised Provost Leslie to write Principal McLeod the following letter.

ABD^N 19 Nov. 1800.

SIR

The Magistrates and Town Council having taken into consideration the proposal of Mr Walker's friend A. B., agree unanimously that the ground for his proposed Hospital shall be procured by the Corporation and conveyed to his Trustees gratis And request you to express to him how sensible they are of the benefite and advantage the City will derive from this his proposed plan, which they wish by every means in their power to facilitate. IX 338.

30 MARCH 1801.

Thereafter it was moved and unanimously resolved that the intended line of the new Turnpike road will be hurtful and injurious to the interests of the Town. And a sketch or draft of several objections and propositions on the subject being produced was read over and approved of and the clerk was authorised to make out get subscribed by the Provost and give in to the Trustees on the Turnpike road, a proper petition or remonstrance on the subject, adopting the plans and proposals and different suggestions ment^d in the said sketch And the Treasurer and John Irvine Jun^r were also authorised to commune with Cap^t Fiddes on the subject to request his assistance on getting a regular and proper plan of the line which would be most beneficial to the Town. IX 346.

17 JUNE 1801.

The Council ordained the Clerk to prepare and forward to David Mitchell Esquire of Holloway Down in the county of Essex, a Burgess ticket conferring on him the freedom of the Town in return for his generosity and benevolence in the erection of the Hospital. IX 355.

16 OCTOBER 1809.

Wednesday the 25th currt being the day for a Jubilee on his Majesty entering the 50th year of his reign the Provost was authorised to request of Dr. Ogilvie senior clergyman to preach a suitable sermon in the parish church that day. The collection at the doors to be for charitable purposes. And the Treasurer was ordered to prepare an entertainment in the Town Hall that evening similar to what is given on the birthday, with the addition of fish—to begin at eight. IX 423.

27 NOVEMBER 1809.

Complaints having been made of people using fire arms in the churchyard at night, when watching the bodys of their deceased friends, whereby danger and inconvenience may arise. It was recommended to the Provost to publish notices prohibiting any such practice in future, and also to ask of the clergymen of the City to give similar notices from the pulpit.

30 SEPTEMBER 1830.

The Council also authorised the Treasurer to purchase a key bugle the price not to exceed three pounds stg., and the drummer was ordered to use it in the morning in place of the drum. X 49.

6 OCTOBER 1831.

There was laid before the Council an application from the Kirk Session of Old Machar requesting the Magistrates to direct their Officer to desist from calling roups &c. at the church door on Sabbath; the Magistrates and Council having taken the same into consideration are of opinion that so long as the Sheriff directs his warrants to roup, and other judicial procedure to be intimated at the church door, they cannot well interfere, but will most readily concur with the Kirk Session in any plan to remedy the evil complained of as much as possible. X 62.

14 JULY 1835.

The Magistrates and Town Council had before them a letter from Mr Bannerman M.P. addressed to Mr Nicol advocate regarding the Aberdeen University Bill, now in progress through Parliament in which he positively declares that no alteration will be made in that clause of the Bill which transfers the School of Arts from King's College to New Aberdeen and that he is quite ready to meet the obloquy to which he must necessarily be exposed from those whose interests this measure chiefly affects that no material alteration can be obtained in the House of Commons but by a division and that little can be hoped for in that manner in short that he means as far as depends upon him to press the Bill through the House without any alteration or amendment.

The Council taking into consideration this most extraordinary communication do hereby unanimously record their opinion that it is tyrannical, unreasonable, and unjust, and highly insulting to the Magistrates and other inhabitants of Old Aberdeen whose interests are so deeply involved in this obnoxious measure.

The following resolutions were made and unanimously agreed to—

That the Magistrates and Town Council, who are the legal guardians of the Common Good, feel themselves imperatively called upon to adopt every constitutional means of averting this public calamity. That the Lord Provost who has kindly offered to proceed to London forthwith be authorised if he see cause to employ Counsel at the expense of the public funds to defend the interest of Old Aberdeen when the Bill comes under discussion in both Houses of Parliament. That the petition now in preparation of the Magistrates to the House of Commons be sent for presentation to General Arbuthnot and that to the House of Lords to Lord Aberdeen the Chancellor of the University with an earnest request to support the prayer. That copies of these petitions be printed and circulated among the most influential members of both Houses accompanied with letters calling their particular attention to the grievances complained of and begging them to use their best endeavours to obtain the necessary redress. X 114.

28 MAY 1836.

The Provost laid before the meeting a Bill to provide for the better regulation of Municipal Corporations in Scotland prepared and brought in to Parliament by Mr Stewart and the Lord Advocate, which bill provides that Old Aberdeen and New Aberdeen shall be united under one Magistracy and containing many other provisions highly objectionable to the meeting. They therefore appointed . . . a committee to go over the Bill and to report their opinion to a future meeting. X 132.

13 NOVEMBER 1846.

The Provost stated that he had called the present meeting in consequence of having observed in last *Aberdeen Journal*, an advertisement calling a meeting of the inhabitants of Aberdeen, and the suburbs; to consider an application proposed to be made to next session of Parliament, for a Bill for the purchase of the Aberdeen Gas Works, and the improvement of the City of Aberdeen, and in which it was contemplated to include this City. The Council after considering the matter, were of opinion that the proposed measure, having been so hurriedly gone into, and being as yet undeveloped to such an extent, so as to enable the meeting to understand it in all its bearings, it would be better for the Magistrates and Council in the meantime neither to assent or dissent at the public meeting. X 214.

25 AUGUST 1847.

Baillie Dyce stated that he had requested the present meeting to be called with a view of proposing that the Council should request Mr Dalgarno to sit for his portrait to be hung up in the Town Hall as some mark of respect for his great liberality and benevolence to the poor in instituting and so liberally endowing the "Dalgarno Poor Fund". Mr Dyce's proposition having been favourably received by the Council, Messrs Dyce and Stables were named as a deputation to ascertain if would be agreeable to Mr. Dalgarno himself and the deputation having reported to the meeting that they had seen Mr. Dalgarno and that he had consented to sit for the portrait the meeting cordially agreed to Mr Dyce's proposal, and appointed the Provost and Baillies Nicol and Dyce a Committee to see it carried into effect.¹ X 224.

¹ The portrait, which was painted by Mr. John Mitchell, now hangs in the Town and County Hall.

21 SEPTEMBER 1848.

Provost Nicol reported to the Council that in accordance with the resolutions agreed upon at a previous meeting, he had the honour along with the other Magistrates of waiting on his Royal Highness Prince Albert in the forenoon of the seventh inst., in the Hall of King's College and of presenting to him the following address which his Royal Highness was pleased most graciously to receive and having also condescended to accept the freedom of the city therein offered to him by the Council a diploma had been prepared in his favor and his name entered in the Roll of Burgesses.

Copy Address—

TO HIS ROYAL HIGHNESS PRINCE ALBERT

May it please your Royal Highness

We, Her Majesty's dutiful and loyal subjects the Provost Magistrates and Council of the City of Old Aberdeen most cordially offer to your Royal Highness our congratulations on the occasion of your first visit to this part of the United Kingdom. We have witnessed with delight the high and princely accomplishments and the public and private virtues by which your Royal Highness has adorned the exalted station you occupy. And it is our fervent prayer and hope that Divine Providence may long vouchsafe to Her Majesty and your Royal Highness the blessing of every domestic enjoyment and we most respectfully entreat your Royal Highness to permit us to have the honour of enrolling your name amongst the number of our freemen and to accept the usual certificate. Signed in our name &c. X 239.

31 JULY 1849.

Baillie Fyfe stated that he along with others were conscious that an endeavour should be made to discontinue the practice of giving bread and wine at funerals. Whereupon it was agreed that a Committee of the Council be appointed to meet with the Kirk Session on the subject. The following were appointed for that purpose, The Provost Baillie Fyfe and Convener Laws. X 250.

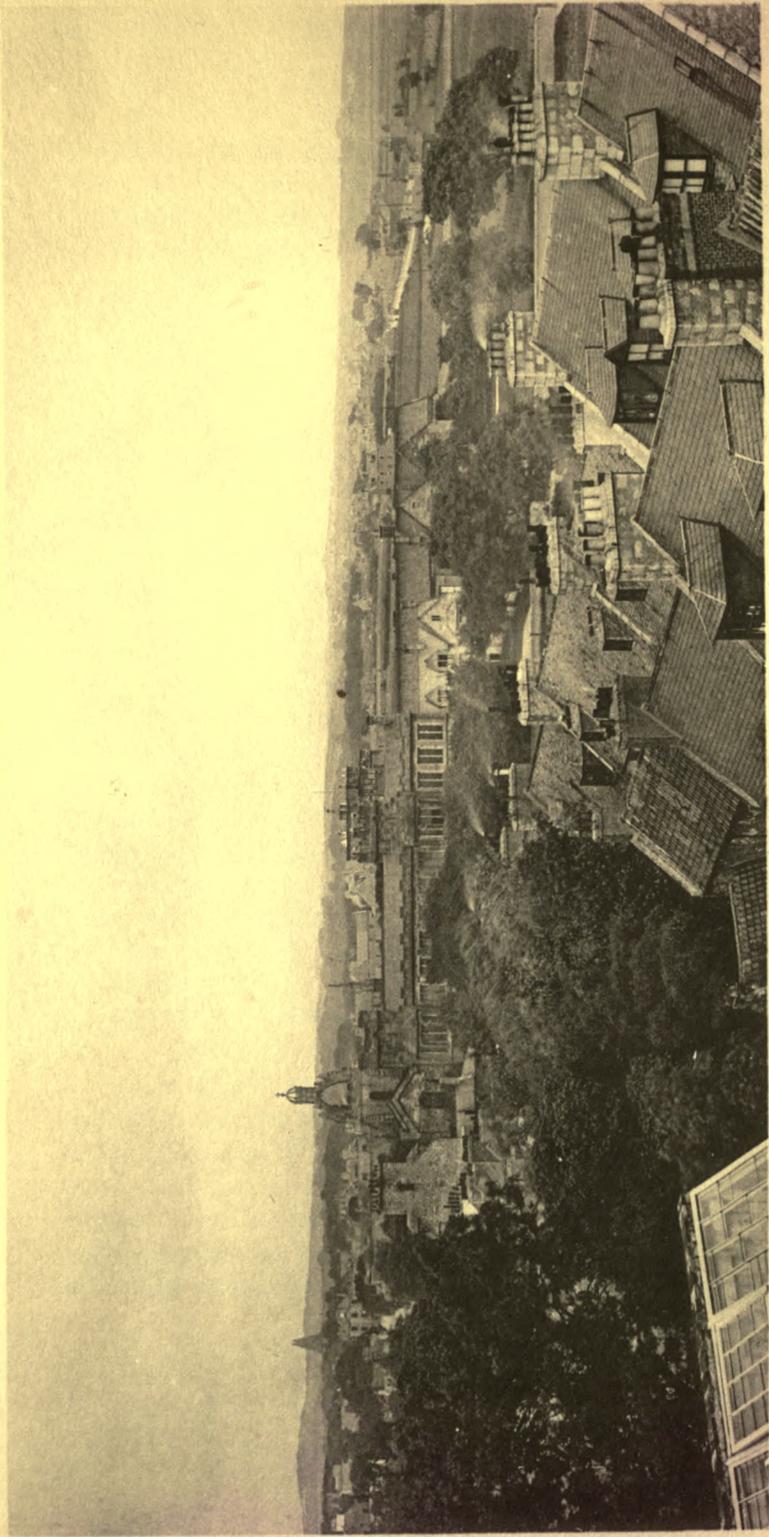

16 DECEMBER 1854.

The Committee appointed at last meeting relative to the proposed Union of King's College and Marischal College laid before the meeting the draft of a Memorial to the Earl of Aberdeen. The Memorial was to the following effect—

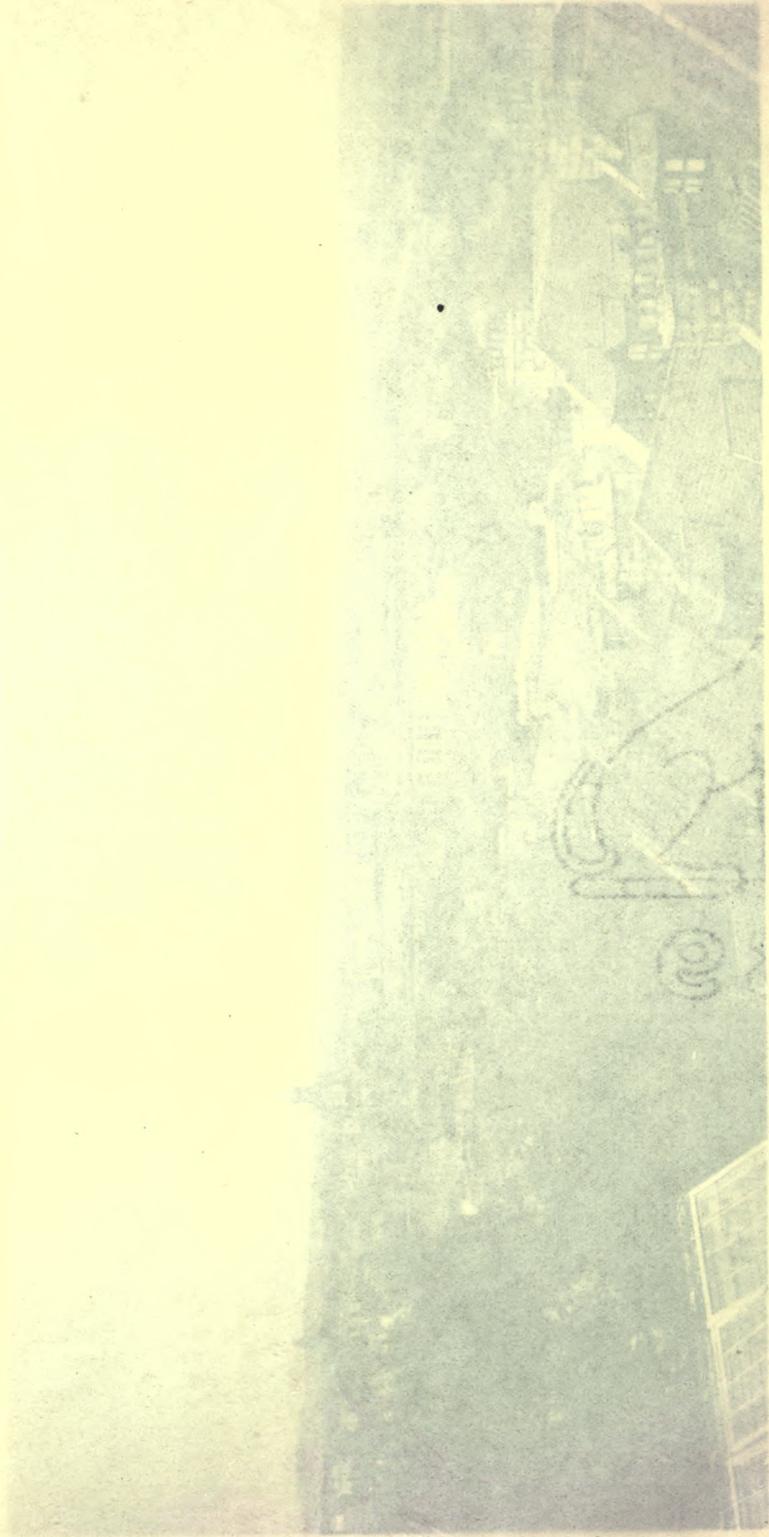

Sheweth

That your Memorialists have watched with great interest the measures which have lately been taken here and elsewhere for effecting a Union between King's College and Marischal College; and, therefore, as the representatives of the community of Old Aberdeen, venture to address your Lordship on the subject: This City has, for the last three hundred and fifty years, been the seat of a University invested with all the powers granted to any similar seminary in Europe; and of a College which has hitherto been the representative of the University. Accordingly the members of the Town Council, in common with the inhabitants, regard the University and College as the chief ornaments of their City, and the sources of its prosperity; and look with jealousy on any interference with the privileges which, through a succession of ages, have been transmitted to them. At the same time they are quite sensible of the anomalous position which the two Colleges hold among the Universities of Scotland in consequence of the deficiency of Professorships in all the Faculties; and, believing that their present condition can be improved only by a well considered scheme of Union, they are prepared to support such a Union on terms which appear them to be fair and equitable.

Your Memorialists are besides fully aware of the invaluable advantages which would be conferred on the North of Scotland by the establishment in this locality of a University complete in all the Faculties, not only in promoting the interests of Literature and Science, but also in furnishing to the Youth of the country an Education of the best description without the inconvenience or expense of resorting to more distant Universities. Your Memorialists regard it as a circumstance peculiarly fortunate that your Lordship presides in the Councils of Her Majesty when a question involving so many important interests is brought under the notice of the Government. Your Lordship's long connection with the University and King's College as Rector and

Chancellor, and the deep interest which you have always taken in their prosperity, render it unnecessary for your Memorialists to enter into further details, and they, therefore, beg leave most respectfully to submit the following principles of Union.

I. That in the University to be established, the precedence, rights and privileges granted to the University of Aberdeen in 1494, and ratified in 1497, shall be maintained inviolate, and that these shall be exercised by the combined University.

II. That there shall be a complete staff of Professors in the Faculty of Arts, namely, Professors of Latin, Greek, Mathematics, Logic and English Literature, Natural Philosophy, and Moral Philosophy, who shall conduct their classes in King's College.

III. That the classes in the faculty of Medicine including those of Chemistry and Natural History and the classes in the Faculty of Law, shall be conducted in Marischal College; and that it shall be left to the Government to allocate the classes in the Faculty of Divinity as may after due consideration be deemed most advisable.

Your Memorialists need not remind your Lordship that, in adjusting the terms of Union between the two Colleges, due regard should be paid to the circumstances in which they are severally placed as respects the Branches of study for which their localities are best adapted. While New Aberdeen is a fit site for the classes in Law and Medicine, Old Aberdeen is from its quiet and retired situation the best place for the classes in Arts; and as such was apparently selected by the Founder of King's College. On this ground, and on the ground of justice to the ancient University your Memorialists trust that at least a complete Faculty of Arts will be retained in King's College.

IV. That the constitution of the University shall be broad and liberal; so as to secure the confidence of the public in its internal management, and facilitate such improvements as altered circumstances may, from time to time, require.

Your Memorialists, in conclusion, take the liberty of pressing upon your Lordship, as the head of Her Majesty's Government, the necessity of introducing a measure for effecting the Union of the Colleges as soon, during the present Session of Parliament, as the state of public business will permit.

They have entire confidence in your Lordship's knowledge of the subject, in your acquaintance with the circumstances and wants of the country and in the integrity and sincerity which have distinguished your whole life as a Peer of Parliament, and as a Minister of State.

Signed in name, and by appointment, &c. XI 28.

6 DECEMBER 1707.

The said day conforme to appoyntment the preses, boxmaster and several others of the Community of the Merchants in Old Aberdeen, haveing meet and Bailie Molyson preses to the Communitie, represented to the meeting, that in regard some of there number, were reduced to straits on which account applica^on being made to him and several others of the said Community, for a supply to them out of the present found. Which representation being duely and deliberatly considered by the meeting, and after serious reasoning upon that head The vote was thus stated, whither or not the present found should be broken for supplyin the straits of those belonging to the Community, for whom applica^on had been made, or otherwyse, and it was by ane unanimous consent and vote of the meeting carried in the negative and upon this account that in regard the said found belonging to the forsd. Community was but at present in its infancy, neither was the present tyme a tyme of scarcity,

and by breakeing the said found, on this juncture it would be a precedent for others, to plead for the like priviledge, but that none of ther Community might labour under great straits, the meeting signyfyed there willingness to contribut voluntarily out of there own pockets for there supply rather than breake there forsd. found and crush it in the end

IV.—PROCEEDINGS OF THE PARLIAMENTARY COMMISSION FOR
TRADE. 16TH MARCH 1699.¹

I.—Petition for the Magistrats of Old Aberdeen.

Unto the Right Hon^{ll} the Lord High Chancellor and remanent Lords and others of the Commissione for regulating the trade betwixt the Burghs Royall and Burghs of Regallity and Barronie.

The Petitione of the Magistrats of Old Aberdeen for themselves and in name of the Community y^{of}.

Humbly Sheweth,

That wher we being informed that the Burghs Royall have given in a Memoriall to yo^r Lo, by q^{ch} they insinuat that we should pay a pairt of the Stent Roll, Albeit it cannot be condishended, that any liveing within our toun have had any foraigne trade except such as ar Burghers of Aberdeen who ar Stented by the Magistrats y^{of}, and so falls not under the compass of unfree traders, so that it wer very hard to impose any quota upon yo^r petitioners who ar content to renunce the benefite of the Act of Parliât. except yo^r Lo, allow us such ane easie quota as we ar able to bear.

May it y^{for} please your Lo, to consider the premissis And befor any quota be stented upon us that yo^r Lo., would allow us to be heard in your oun presence, And your petitioners shall ever pray.

W^m Black.

Edinb : 16 March 1699.

The Commissione of Parliât for settling the communica^{on} of trade haveing considered this petitione and heard the petitioners Advocats y^{upon} they modifie tuo shift Scots monethly to be payed by the toun of Old Aberdeen and approves the report of the Committee y^{anent}.

- 2.—Report from the Commissioners of Supply of the Shyre of Aberdeen to the Commission of Parlia^t of what was offered before them be Burghs of Barony and Regality and other unfree Traders for the benefite of Communication of Trade with the Com^{rs} opinion anent the sds. offers. 25th Day of April, 1700.¹

The saids Commissioners of Supply of the Shire of Aberdeen at least a quorum of them having met at Aberdeen the said twenty fyfth day of Aprile did in the first place nominat and elect Sir Samuel Forbes of Foveran to be their Preses. Thereafter Andrew Fraser of Kinmundie Shirref Depute of Aberdeen one of their number did produce the Act of the Com^{rs} of Parlia^t anent unfrie Traders dated the tuentie day of March last, whereby the Com^{rs} of Supply of the sãall Shires are appointed to meet at their ordinary places of meeting this day to receive and hear what every Burgh of Regality Baronie and others unfree Traders within the reãive bounds will offer and undertake to pay of the taxt roll of ane hundreth pundis of the Burghs Royall for obtaining the communication and freedome of trade conform to the Acts of Parlia^t made theranent, As also to hear what the Burghs Royal within their reãive bounds shall object ag^t the saids offers and to receive and consider what arguments probation and other evidents may be adduced hinc inde for the better stating and adjusting of the said quota.

Lykewayes compeared M^r John Robertstone one of the Baillies of Old Aberdeen and produced a Commission dated the tuentie tuo day of Aprile instant granted to him be the Baillies and Councill of the City of Old Aberdeen for compearing befor the Com^{rs} of Supplie at this tyme and making offer in favors of the said citie for their communication of trade, which Commission being publictlie read, the sd. M^r John Robertstone made offer of tuelfe pennies Scots of the taxt roll for the said Toun of Old Aberdeen and freedome therof including the whole inhabitants and wes content to bear burden accordingly, declaring the freedome to be from the Key stone at John Setons house in the Spithill to Thomas Cassies house in the head of the Seaton in the North end of the Old Toun, and protested that this may be reported to the Commission of Parlia^t and that he might have ane extract therof; Lykeas it wes

¹ Acts of Parliament, x. 143.

objected ag^t the same be the Burgh of Aberdeen, that the offer is far under the value of their trade, espeattie considering that they live within a myle of the Burgh of Aberdeen, and have interest in the shipping therof and have a vast trade of stockings fingring and plaiding and intercepts the most pairt of these goods when coming to the said Burgh of Aberdeen, and import and export all staple commodities; and to evidence how mean the offer made is, it is offered to be proven that James Knight, Alex^r Molliesone, and other merchants living in Old Aberdeen have paid each of them more taxaⁿ to the Burgh of Aberdeen yearly than the offer extends to, And it is offered to be proven that ther is more than thretty trading mert^s in Old Aberdeen, who have a considerable foraigne and inland trade, the veritie of the which objection is offered to be proven by the Custom-house and factors bookes and their oun receipts of taxaⁿ and oaths of verity, As to which objection made be the Burgh of Aberdeen ag^t the offer maid be the Old Toun, It wes replied be the said M^r John Robertstone that the hail inhabitants within the Toun of Old Aberdeen (except sex or seven) are reduced to such straits, as can be maid appear, that both they and their families do live upon charity, and these sex or seven neither does nor ever did trade to foraigne places, except one who is a Burger of Aberdeen, and is most severely taxed by the said Toun yearly far beyond his trade, And q^{as} it is said that the merchants in Old Aberdeen have shares in ships, It is offered to be proven that ther is no merchant in Old Aberdeen hes any right or share in any ship except James Knight, who hes only a tuelft pairt of Skipper Scots Bark, so that the Toun of Aberdeen their objection ag^t the offer made by Old Aberdeen is most calumnious tending only to the ruine of the place, therefore it wes desired that the former offer of the Toun of Old Aberdeen with the objection and this reply made therto may be recorded and reported to the Commission of Parlia^t or their Clerk tymouslie, And that the said M^r John as Commissioner forsd. may have an extract therof, To which it wes ansered be the Burgh of Aberdeen that the forsaide reply is very calumnious; For if M^r John Ro^sone ingiver therof will condescend upon the sex or seven merchants who he alleadges are the only traders ther, the Burgh of Aberdeen will condescend upon twice als many who have als great a trade, And since it is offered to be proven that James Knight, & Alex^r Molisone being taxt as Burgers of Aberdeen, each of them have paid

more than the offer made for Old Aberdeen, It is evident that the said offer is a mear sham, and very far below the extent of their trade, and farder it is well known to M^r Ro'sone that ther are no merchants in the Old Toun taxt but after the same maner the mer^{ts} in Ab^d are taxt, that is conform to the accompt of their oun upgiving, or a proba^on in case of short upgiving.

The Commissioners judged it convenient for them to proceed to the considera^on of the offers alreadie made, that they might make a report of their opinion theranent, In order wherunto they caused their clerk read over separately and by itselfe each of these severall offers with the objectiones, replyes and duplyes relating to each particular of them, and at great length having seperatlie considered each of these offers and objectiones and fully heard the pairties concerned theranent, As also having reasoned and consulted the same among themselves they did and hereby do give their opinion as follows viz. :—

And as to the offer made be the Toun of Old Aberdeen of tuelfe pennies Scots for the inhabitants of the said Toun and alleadged freedome including from the Key stone to Thomas Cassies house the Commissioners does not find that the Toun of Old Aberdeen hes any priviledge or jurisdiction over the Spithill pertaining to James Moir of Stonywood and for which he hes made offer and with all the Commissioners judges that the offer of tuelfe pennies Scots is too mean and very far below the extent of their trade albeit they should restrict it to the inhabitants of Old Aberdeen allennarly.

3.—Petition for the inhabitants of Old Aberdein, 7th August 1701.¹

Unto the Right Honorable the Lords of the Committee appointed for bringing in the Scheme of the unfree traders their proportions of the Taxt Roll for the relief of the Royall Burrowes, The Petition of Master Alex^r Frazer William Baxter and James Knight Bailzies of Old Aberdeen for themselves and in name of the Councill and Communitie of the sd. Burgh

Humbly Sheweth,

That where your petitioners being informed that your Lōps have

thought fitt that the hail unfree tradders within this Kingdome should pay five pound seven shilling nine pennies of the stent roll and have proportioned the same among the sēall Burghs of Barrony and Regallity of whom the Burgh of Old Aberdeen being one, your Lōps inclined to put three shilling Scots upon the said Burgh for our communication of trade, But that the sd. schem is not yet approven, so that we beg leave to represent to your Lōps that our sd. Burgh of Old Abd. is so impoverished what by quartering and other publick calamities that we cannot support w^t the burden of the sd. three shilling in the taxt roll, since y^r are feu or no tradeing merchants amongst ws and such as are have their freedom of the Neutoun of Abd. and payes scot and lot y^r For the poor Toun of Old Abdn. hes no harbour nor no manner of trade, only some small commodities we retails which is brought from the Newtoun of Abdn and whose Burgers have the only advantage by it, being the importers of all sort of goods in which the inhabitants of the Old Toun have no part and consequently no profit, all of which is very weell known to some of your Lōps own number, and wee haveing formerly made an offer of twelve pennies Scots of the taxt roll for our communication before the Commissioners of Supplie as ane extract of the offer herew^t produced will testify which is all wee can conveniently support with, yet we are content to take six pennies more making in hail eighteen which is all that in reasone can be demanded of ws or without the ruin of our Burgh, can be undertaken be ws.

May it therefor please your Lōps &^c

The Committee aggries y^t the sd. place pay tuo shift for y^r trade.
